PROGRAMMING & ROBOTICS CLUB

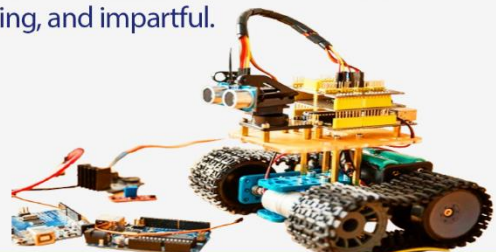

At Maria Loreto, we believe in preparing our students for the future, which is why we are excited to partner with Paragon E-School to launch the Programming & Robotics Club. Through fun and hands-on classes, your child will gain valuable skills in technology and problem-solving. We know every child deserves the chance to explore, learn, and thrive in today's digital world. Enroll your child today and give them the opportunity to unlock their potential through this exciting new program!

What is the Programming & Robotics Club?

The Programming & Robotics Club is an exciting opportunity for students to dive into the world of coding, artificial intelligence, and robotics. Designed for kids aged 6 to 13, this club offers:

- ✓ **Hands-On Projects:** Students will code their own games, program robots, and create innovative solutions to real-world solutions at a level of their understanding.
- ✓ **Age-Appropriate Learning:** Tailored lessons ensure that each age group learns at their own pace.
- ✓ **Expert Guidance:** Classes are taught by Paragon-eSchool's experienced instructors who make learning fun and engaging, and impactful.

Benefits for Your Child

Joining the Programming & Robotics Club will help your child:

- ✓ Develop problem-solving, teamwork, and creative thinking skills.
- ✓ Gain hands-on experience in coding, artificial intelligence, and building robots.
- ✓ Build confidence by turning ideas into real projects that solve real world problems.
- ✓ Stay ahead of the rest in this tech-driven future, where programming, artificial intelligence, and robotics are essential skills.

Why Choose this program?

We specialize in nurturing young minds with practical and innovative teaching methods. Our team of experts ensures that every child receives personalized attention to excel at their level.
